

Chapter 5 homework #1

- Write a paragraph:
 - Describe a situation when a product or service could be a vertical supply line. (not example from the book) How could the producer change that line to make it slope upwards and be able to supply more?
- (use page 115)

Chapter 5 homework #1

- Pretend you own a business in which you create a product or offer a service. Pick a product/service and also choose a determinant. Show how the determinant changed the supply for this product.
 - **Graph** how the determinant changed the supply line.
 - Write a **sentence** explaining what happened to the graph and why.
